 alsico
our performance protects yours

who we are

Alsico contamination control is a global supplier of garments for cleanrooms, clean areas, ESD environments and operating theatres.

We develop, produce and supply high quality garments to rental companies, end-users and specialised distributors.

We are part of the alsico group, a specialist in workwear with more than 80 years of experience. Alsico contamination control is a business unit of alsico group. This enables us to concentrate 100% on our core business: protecting your environment.

Our performance protects yours.

As a three decade long market leader in the cleanroom industry, we at alsico noticed that there is a strong demand for a clear and complete cleanroom and clean area garment range.

Thanks to our close collaboration with end customers and rental companies we were able to create our own complete collection: be.clean.

In our be.clean collection you will find the required garments for working in a controlled environment.

our complete collection

/ according to IEST-RP-CC003.5

/ approved durability

Details

A woman with dark hair tied back, wearing a patterned headscarf and a dark blue shirt, is focused on sewing a piece of light blue fabric on a white industrial sewing machine. The machine has a bright light attached to it. The background is a blurred factory setting with other sewing machines and equipment. A large blue diagonal shape is on the left side of the image.

Colours on demand:

- blade blue
- navy
- grey
- lemon green
- verbena green
- dark green
- orange

Annex 1 calls for the selection of garments to be assessed not only when new but also throughout their entire lifespan. To meet these stringent criteria, we have subjected all our garments to a comprehensive end-of-life validation test. Below, we present the data on particle emission for an Alsistrong® coverall across its entire lifecycle.
